NEWS FROM THE WASTEWATER TREATMENT PLANT

The City is always working to prevent storm and groundwater from entering the waste water system and prevent a costly plant expansion for utility payers in the city. Tap water should be the only thing that goes into the sewer. If you have a sump pump, please ensure it is not draining into the sanitary sewer, but into a yard or open area. If you feel that your sump pump is running constantly, please feel free to contact the City to have the city crew help you to adjust it.

NEVER flush the following items (or put down the garbage disposal or drain). Toss them in the trash instead!

- Baby/Facial/Cleaning **WIPES**
- Clothing or Clothing Labels
- Tampons / Sanitary Napkins
- SYRINGES / NEEDLES
- MEDICATION
