**New Business**

- 1. Keller Avenue Project Concrete Remediation Proposal** – This has been brought forward as a result of a mistake by the concrete contractor on the Keller Avenue Project. All of the sidewalks are supposed to be 8 inches thick; however, the project inspector has found that they are only 7 inches thick resulting in a lower PSI rating. The contractor offered to take \$2.50 per foot off of the total cost of \$11.50 per foot.

*Motion by Alderperson, Elkin; seconded by Alderperson, Van Blaricom to approve the proposed cost of \$9 per foot for all sections that must be remediated.*
